

## Corona Update - Important Information

### IDC Days in Croatia Cancelled again for 2021

Dear Doberman friends,

We have received information from our Doberman friends in Croatia that a major event such as our IDC Days with exhibition will unfortunately not take place in 2021.

However, due to the continued successful vaccination campaigns in Croatia, the authorities in Croatia are very confident that our IDC World Championship and IDC Days can already take place again in 2022. Travel regulations, hotel capacities under the strict hygiene measures also have to be considered and adhered to.

Our Croatian Doberman friends, who wanted to present us these IDC Days for the first time and with a lot of enthusiasm under the leadership of their President, Mr. Miroslav Bedekovic, have again asked us to keep up the application and to postpone the organisation now probably to the year 2022. We were happy to comply with this request once again, if only to show our respect and appreciation for the months of work that have been put in so far, which should not remain fruitless.

Consequently, all further applications for the years 2021 and 2022, which have already been made, will be postponed by one year in each case.

An international reunion of all Dobermann friends, with their wonderful Dobermann dogs, will thus unfortunately not be possible in 2021.

We would like to thank the Dobermann Club Croatia with its President Mr. Bedekovic and all Dobermann friends involved in the organisation for their commitment and additional efforts.

All the more we are looking forward to the next possible opportunity to see us all again, well, healthy and cheerful.

Stay well all of you!

With warm greetings

1st President-IDC

Hans Wiblishauser

On behalf of the IDC Secretariat

Evi Torfs
